SKU:	ACS-NMHS16-EA
Product Weight:	1.10 lbs.
Quantity:	Each

Case Specifications

GTIN:	00860003774519
Brand Name:	Naturall
Case UPC:	860003774519
SKU:	ACS-NMHS16-EA-CS
Case Weight:	< 30 lbs.
Quantity:	24 16-oz bt/cs
Cases/Pallet:	55
Pallets/Truckload:	30

Frequently Asked Questions

Do All Hand Sanitizers Work the Same?

No. When it comes to hand sanitizing products, formulation matters. The active ingredient is important, but the total formulation affects the product's effectiveness. The product also has to deliver good skin care performance and be enjoyable to use.

Does Naturall™ Moisturizing Hand Sanitizer Really Kill 99.99% of Germs that May Cause Illness?

Yes. Naturall™ Moisturizing Hand Sanitizer products are tested against a broad spectrum of micro-organisms and have resulted in more than 99.99% reduction of those organisms. It is prohibited by the Food and Drug Administration for manufacturers to make viral reduction claims.

Does Naturall™ Moisturizing Hand Sanitizer Kill the Resident Germs and Transient Germs on Your Hands?

Germs live all around us. Our bodies are covered with germs that help us stay healthy. These are considered "resident or potentially harmless" bacteria and, they reside on and in the body. In addition to the resident bacteria, we are also exposed to ones that we pick up from contact with other people or objects. These are called transient bacteria. It is these germs that are often responsible for making you sick. Naturall™ Moisturizing Hand Sanitizer reduces some of your resident bacteria while eliminating the transient bacteria on the top layer of your hands. Your body quickly regenerates your resident bacteria.
